DETAILED ACTION

1. The corrected Terminal disclaimer to disclaim US patent 7184548 filed on 08/22/2005 has been approved.
2. The decision on the renewed petition to withdraw the holding of abandonment under 37 CFR 1.181, filed March 14, 2007, has been granted on 05/09/2007.

Allowable Subject Matter

5. Claims 1-63 are allowed.

The following is an examiner's statement of reasons for allowance: the applied prior arts fail to disclose a scalable encoder scalably encoding data or a portion of segmented data and a progressive encyprer progressively encrypting the scalably encoded data or the portion of segmented data. All prior art references either scalably encode (transcoding) OR progressively encrypt the data. The benefit of doing both is that data can be secured in sections to allow transcoding to be performed without having to decrypt the entire data file.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
